## About me

A Junior software developer with 4–5 years of self-driven, practical experience, deeply proficient in MySQL/MariaDB, and experienced in Backend development using PHP Frameworks (currently Laravel), along with mobile applications (Dart/Flutter). I have a strong understanding of API mechanisms and basics of Python and JavaScript. I am seeking a practical internship to gain direct experience in FastAPI, Next.js, and Flutter. I am fully committed and available for the in-person training phase in Sanaa, distinguished by rapid learning and creativity, aiming for formal employment.

## Projects

### Personal Portfolio (Applied Projects & Demonstrations)

A comprehensive portfolio featuring a set of integrated, self-driven projects developed over 4–5 years of practical experience. The foundation of this experience is in Backend development using PHP and MySQL/MariaDB for data-intensive systems, mobile applications using Flutter/Dart, and most recently, building advanced systems with the Laravel framework. The aim is to provide visual evidence of key development skills and the ability to build end-to-end systems. <https://ghadah-696.github.io/Dropydrop>

## Skills

**Key Technical Skills** | PHP, MySQL | PHP Laravel framework (beginner) | Dart (Flutter) | JavaScript framework | Html5/CSS3 | SQL, MySQL, MariaDB.
